MEDICAL CERTIFICATE

Department: Engineering and Mathematics

Name: Sebastian Oakes

Date of birth: 02-Sep-1992

Computer No: 512174

This is to confirm that Sebastian is suffering from ongoing depression for which he is receiving treatment. This is a chronic condition which will be having a moderate effect on his ability to study. I would be grateful if this could be taken into account when considering his application for extenuating circumstances.

Signed:

A handwritten signature in black ink, appearing to read "V Stansfield".
